DÈCO FABRINOX INC.

At **Deco Fabrinox (DFI)**, we don't just fabricate metal we shape vision into reality. As India's premier metal fabrication company with a powerful PAN India footprint, we specialize in delivering bespoke metal solutions that elevate spaces and transform design narratives.

From architectural masterpieces and luxury interiors to signature elements like sculptural partitions, premium railing systems, and bold furniture bases, every piece we create is tailored, timeless, and engineered for excellence.

Our portfolio spans residential, commercial, and high-end hospitality projects, with a sharp focus on innovation, detail, and design integrity. Whether it's stainless steel, brass, or aluminium, we work only with premium materials, fused with precision and artistry to ensure durability meets design.

At DFI, every curve, every weld, every finish tells a story, a story of craftsmanship, customization, and commitment to brilliance. When you partner with us, you don't just get metal work. You get metal reimagined.

OUR INFRASTRUCTURE

- **CNC LASER CUTTING MACHINE**

We are one of the few organisations in Delhi with a Laser machine having a huge Bed size of 2000X4000 mm which can cut up to 20 mm of metal in one command.

- **CNC BENDING MACHINE**

We also have a high-quality 5-axis machine for precisely bending sheets up to the length of 3 metres.

- **CNC V-GROOVING MACHINE**

Here we also have a special V-Grooving machine for sharp edge bending up to 4-metre lengths, which is required for Cladding, Profiles, and inlays such as C, L, U, T, V, W or for any customised section.

INFRASTRUCTURE EXPERTISE

- Welding Expertise
- Laser Welding – High precision, clean, and strong joints
- TIG Welding – Accurate and neat finishing for stainless steel
- MIG Welding – Fast, strong, and versatile welding method
- Spot Welding – Efficient for sheet metal joining
- Metal Forming & Bending
- Pipe Bending – Precision shaping of metal pipes
- Sheet Bending – Accurate folding for custom fabrication
- Surface Finishing
- Flat Polyester & Pipe Polyester – High-quality polishing for smooth finish
- Buffing Machine – Mirror-like surface finishing
- Lancer Belt Grinder – Fine grinding and surface treatment
- Machinery & Casting
- Lathe Machine – Precision turning and shaping of components
- Induction Furnace Casting Ladle – High-quality metal melting & casting

C 23
SALON

A photograph of a modern interior ceiling. The main feature is a large, oval-shaped ceiling fixture with a wooden slat design, illuminated from within. Below it hangs a modern chandelier with a black frame and several brass-colored shades. The background shows a white ceiling with recessed lighting and a white wall with horizontal lines.

CELLING DESIGNS

An abstract architectural photograph showing a series of overlapping, angular planes in shades of brown, tan, and grey. The composition is geometric and modern, with sharp lines and deep shadows. The top left corner shows a glimpse of a blue sky with white clouds.
